

Tracoe Twist – REF 506

Tracoe Twist spare inner cannulas fenestrated

Product Description

The Tracoe Twist tracheostomy tubes are used as ventilation and therapy tubes with inner cannulas in hospitals, rehabilitation, and community settings. A special feature is the curved neck flange that moves in both the vertical and horizontal axes, following the movements of the patient's head. The thin tube walls of inner and outer cannulas allow for a good inside - outside diameter ratio. Tracoe Twist and Twist Plus tracheostomy tubes are made of polyurethane (PU). The low-pressure cuff is made of medical grade PVC.

Scope of Supply

- 3 inner cannulas fenestrated with 15 mm connector

General Information

Product line	Twist
Legal manufacturer	Tracoe Medical GmbH Reichelsheimer Str. 1/3 55268 Nieder-Olm, Germany
Country of origin	Germany
Colour Coding	n. A.
Handling	
Shelf life	5 years, from date of production
Maximum Useful Life	5 weeks, from first use

Packaging

Packaging unit	1 unit
Weight	See Table
Dimensions (W x H x L)	93 x 200 x 60
Material outer packaging:	Cardboard box
Material sterile packaging:	Sterile bag with medical paper and transparent heatsealable PET/PP foil

Material Specifications

Material Outer cannula	Polypropylene
Material Neck Flange	n. A.
Material Cuff	n. A.
Biocompatibility	EN ISO 10993-1

Storage

Certification

Product classification acc. MDR	IIb
CE Marking	
GMDN	35404
Quality system certified to	EN ISO 13485
FDA registration	Clearance Number K961449
